

```
import java.util.*;
public class Main
{
    public static void main(String[] args) {
        Scanner sc=new Scanner(System.in);
        System.out.println("Enter number: ");
        int no=sc.nextInt();
        String result=(no % 2 == 0)?"Even":"Odd";
        System.out.println(result);
    }
}
```
