```java
import java.util.*;
public class Main
{
    static String isVowel(String nm){
        return nm.replaceAll("[aeiouAEIOU]","");

    }
    public static void main(String[] args) {
        Scanner sc=new Scanner(System.in);
        System.out.println("Enter String");
        String nm=sc.nextLine();
        System.out.println(isVowel(nm));
    }
}
```
