```java
import java.util.*;
public class Main
{
 public static void main(String[] args) {
  Scanner sc=new Scanner(System.in);
  int no;
  System.out.println("Enter your number");
  no=sc.nextInt();
  int count=0;
  while(no != 0)
  {
     no=no/10;
     count++;
  }
  System.out.println(count);
 }
}
```
